INDEX TO VOLUME 56*

Aach, R. D. Corticosteroids and bilirubin metabolism (Editorial), 363
Abdominal aorta, colonic ischemia following aneurysm surgery of, 633'
Absorption. See specific substance or anatomical location, and Malabsorption
ABSTRACTS
Abstracts of Papers Presented at the Annual Meeting of the American Gastroenterological Association, 1133
Abstracts of Papers Presented at the Nineteenth Annual Meeting of the American Association for the Study of Liver Diseases, 397
Summary of Papers of Gastroenterological Interest Presented at the Annual Meeting of the Federation of American Societies for Experimental Biology, 821
Acetazolamide, effect on volume and electrolyte composition of hepatic bile (man), 286
Achlorhydric persons, bacterial flora of gastrointestinal tract in, 71
Acid
bile, colonic absorption of, 979'
effects, and gastric mucosal hemorrhage (dog), 439; (Comments), 637
role in acute experimental esophagitis, 223
See also specific acid
Acid output, after pentagastrin, timing of peak (Comments), 641
Acid secretion, effect of secretin on (cat, dog), 468
Acidification, duodenal, mediation of gastric secretory inhibition induced by, 976'
Acidosis, renal tubular, in cirrhosis, 1114'
Acosta, A. See Miranda, 310
Adibi, S. A. The influence of molecular structure of neutral amino acids on their absorption kinetics in the jejunum and ileum of human intestine in vivo, 903
Adverse Effects of Drugs on the Gastrointestinal Tract (Notices), 1008
Aguglia, F. See Pagliaro (Case Report), 938
Albumin metabolism, in tropical sprue patients, 252
Alcohol
effects, and gastric mucosal hemorrhage (dog), 439; (Comments), 637
pancreatic secretion, and pancreatitis (Comments), 380
Alcoholism, experimental chronic, 378'
Alkalosis, resulting from combined administration of "nonsystemic" antacid and cation-exchange resin, 868
Almy, T. P. Stewart George Wolfe: our new president, 1013
Alpers, D. H. On β-galactosidase activity (Comments), 985
American Association for the Study of Liver Diseases, papers presented at nineteenth annual meeting of (Abstracts), 397
American Gastroenterological Association, papers presented at annual meeting of (Abstracts), 1133
American Pancreatic Club Annual Meeting (Notices), 846
American Physiological Society Lecture (Notices), 392
Amino acids, neutral, influence of molecular structure on absorption kinetics in jejunum and ileum (man), 903
Anal sphincter strength, comparison of objective measurement with anal sphincter pressures and levator ani function, 110; (Comments), 184
Anastomosis, ileoanal, through extramucosal rectal tube, 176'
Andre, C. See Lambert, 200
Aneurysm, of abdominal aorta, colonic ischemia following surgery for, 633'
1969 Annual Meeting of the American Gastroenterological Association and Related Meetings (Notices), 189, 390, 648
Antacid, "nonsystemic," alkalosis resulting from combined administration of cation-exchange resin and, 868
Antibodies
heterologous and auto-, effects on deoxyribonucleic acid synthesis in stomach and colon (guinea pig, rabbit), 1071
production of, to components of adult and fetal guinea pig gastric and colonic mucosa, 1053
specific heterologous, histological changes in stomach induced by injection of, 1062
to human gastrin I,
binding of caerulein by, 858
studies of immunochemical specificity of, 429
to intestinal microvillous membranes, 374'
Aorta, abdominal, colonic ischemia following aneurysm surgery of, 633'
Appendiceal lymphoid development, influence on intestinal contents on, 809'
Argentaffin cells, of gut, comparison with argyrophil cells, 180'
X Argentine Congress of Gastroenterology (Notices), 1008
Argyrophil cells, of gut, comparison with argentaffin cells, 180'
Arteriography, localization of gastrointestinal bleeding by, 175'
Ascites, side-to-side portacaval shunts for, 810'
Ascorbic acid deficiency, and gastric bleeding, 628'
Aslam, M., B. Paciuc, O. L. Rubinstein, and J. B. Hammond. Deep spreading carcinoma of the stomach causing death within seven months of last normal X-ray examination (Case Report), 137
Aspirin
and gastrin bleeding, 628'
effects, and gastric mucosal hemorrhage (dog), 439; (Comments), 637
Atresia, esophageal function after repair of, 972'
Atropine inhibition, of insulin-, histamine-, and pentagastrin-stimulated gastric electrolyte and pepsin secretion (dog), 693
Aynaciyan, A. V., and J. R. Bingham. pH of the duodenum of patients with and without duodenal ulcers measured with a radiotelemetering capsule, 476
Bacteria, oral, immunoglobulin A on, 178'

* The superior symbol (') indicates that the entry is found in the "Selected Summaries" section.

Bacterial flora, of gastrointestinal tract in healthy and achlorhydric persons, 71
Baker, S. J. See Mathan, 556
Baldus, W. P. See Bevan, 1040
Barbital, jaundice due to drug containing (Case Report), 938
Baron, J. H. Timing of peak acid output after pentagastrin (Comments), 641
Bedi, B. S.

CONTENTS OF VOLUME 56

No. 1, JANUARY 1969

The Swallowing Disorder in Patients with Diabetic Neuropathy-Gastroenteropathy. P. Mandelstam, C. I. Siegel, A. Lieber, and M. Siegel 1
The Action of a Carminative on the Lower Esophageal Sphincter. C. J. Sigmund and E. F. McNally .. 13
Specific Inhibition of Gastric Pepsin in the Treatment of Gastric Ulcer. D. S. Zimmon, G. Miller, G. Cox, and M. A. Tesler 19
Inhibition by Pregnancy and Lactation of Steroid-induced Ulcers in the Rat. P. Kelly and A. Robert .. 24
A Radial Diffusion Assay for Pepsinogen and Pepsin. I. M. Samloff and M. S. Kleinman 30
Ultrastructure and Function of Gastric Parietal Cells in the Rat during Development. H. F. Helander .. 35
Ultrastructure and Function of Gastric Mucoid and Zymogen Cells in the Rat during Development. H. F. Helander 53
Studies on the Intestinal Flora. I. The Bacterial Flora of the Gastrointestinal Tract in Healthy and Achlorhydric Persons. B. S. Drasar, M. Shiner, and G. M. McLeod 71
Gastric Motor-stimulating Activity of Gastrin Tetrapeptide in Dogs. H. I. Jacoby and C. H. Marshall 80
Comparison of Subcutaneous and Intravenous Secretin in Man. J. I. Isenberg and M. I. Grossman ... 88
Studies of the Perfusion Technique for Colonic Absorption. G. J. Devroede and S. F. Phillips 92
Conservation of Sodium, Chloride, and Water by the Human Colon. G. J. Devroede and S. F. Phillips. 101
Comparison of an Objective Measurement of Anal Sphincter Strength with Anal Sphincter Pressures and Levator Ani Function. N. E. Diamant and L. D. Harris 110
Nontropical Sprue in Siblings with Dissimilar, Unusual, and Severe Manifestations. E. M. Sokol, G. M. Brown, and H. L. Frucht 117
Short Small Intestine Associated with Malrotation: A Newly Described Congenital Cause of Intestinal Malabsorption. J. R. Hamilton, B. J. Reilly, and R. Morecki 124
Deep Spreading Carcinoma of the Stomach Causing Death within Seven Months of Last Normal X-ray Examination. M. Aslam, B. Paciuc, O. L. Rubinstein, and J. B. Hammond 137
Progress in Gastroenterology 143
Editorial 170

No. 2, FEBRUARY 1969

Hyperplasia of the Gastric Mucosa Produced by Duodenal Obstruction. G. P. Crean, D. F. Hogg, and R. D. E. Rumsey 193
Incorporation of Radiosulfate in the Gastric Mucosa of the Rat Subjected to Restraint. R. Lambert, C. Andre, and F. Martin 200
Evaluation of Gastric Acid as a Factor in Drug-induced Gastric Hemorrhage in the Rat. D. A. Brodie and B. J. Chase 206
Lipolysis and Absorption of Fat in the Rat Stomach. S. B. Clark, B. Brause, and P. R. Holt 214
Role of Acid and Pepsin in Acute Experimental Esophagitis. H. I. Goldberg, W. J. Dodds, S. Gee, C. Montgomery, and F. F. Zboralske 223
Pathology and Pathophysiology of the Small Intestine in Murine Schistosomiasis Mansoni, Including a Review of the Literature. E. O. Domingo and K. S. Warren 231
Alteration in Cobalt Absorption in Patients with Disorders of Iron Metabolism. L. S. Valberg, J. Ludwig, and D. Olatunbosun 241
Metabolism of Albumin and Fibrinogen in Patients with Tropical Sprue. K. N. Jeejeebhoy, A. M. Samuel, B. Singh, G. D. Nadkarni, H. G. Desai, A. V. Borkar, and L. S. Mani 252
Electron and Light Microscopic Identification of the Mast Cell of the Gastrointestinal Tract. W. O. Dobbins, III, J. T. Tomasini, and E. L. Rollins 268
Ethanol Ingestion and Incorporation of ^{32}P into Phospholipids of Pancreas in the Rat. H. Orrego-Matte, E. Navia, A. Feres, and L. Costamaillere 280

Effect of Secretin and Acetazolamide on the Volume and Electrolyte Composition of Hepatic Bile in Man. A. M. Waitman, W. P. Dyck, and H. D. Janowitz ... 286
Serum α_1-Acid Glycoprotein in Chronic Ulcerative Colitis. W. H. Dearing, W. F. McGuckin, and L. R. Elveback ... 295
Further Studies of in Vitro Cytotoxicity of Lymphocytes from Patients with Ulcerative and Granulomatous Colitis for Allogeneic Colonic Epithelial Cells, Including the Effects of Colectomy. R. G. Shorter, M. Cardoza, R. J. Spencer, and K. A. Huizenga ... 304
Nonspecific Ulcerative Colitis in Costa Rica. M. Miranda, J. Salas, R. A. Umaña, G. Jiménez, and A. Acosta ... 310
Electromyography of the Colon in Situ. An Experimental Study in Man and in the Rabbit. D. Couturier, C. Roze, M. H. Couturier-Turpin, and C. Debray ... 317
A Syndrome Resembling Relapsing Polychondritis in a Patient with Ulcerative Colitis. S. W. Rosen, M. R. MacKenzie, P. J. Cohen, S. Friedlander, W. Medart, and J. B. Reardan ... 323
Gastroduodenal (Pyloric) Band. Endoscopic Findings and First Reported Case. V. M. Smith and K. W. Tuttle ... 331
Necrotizing Enteritis in Crohn's Disease of the Small Bowel. M. Mogadam and R. J. Priest ... 337
Progress in Gastroenterology ... 342
Editorial ... 363
In Memoriam ... 367

No. 3, March 1969

Studies of the Immunochemical Specificity of Some Antibodies to Human Gastrin I. J. E. McGuigan ... 429
Gastric Mucosal Hemorrhage in Dogs. Effects of Acid, Aspirin, and Alcohol. H. W. Davenport ... 439
Effect of Gastrin and SC 15396 on Gastric Motility in Dogs. J. I. Isenberg and M. I. Grossman ... 450
Pentagastrin in the Gastric Fistula Dog. B. I. Hirschowitz and G. Sachs ... 456
Effect of Secretin on Acid and Pepsin Secretion in Cat and Dog. G. F. Stening, L. R. Johnson, and M. I. Grossman ... 468
*p*H of the Duodenum of Patients with and without Duodenal Ulcers Measured with a Radiotelemetering Capsule. A. V. Aynaciyan and J. R. Bingham ... 476
Mechanism by Which Fat in the Upper Small Intestine Inhibits Gastric Acid. H. T. Debas, B. S. Bedi, G. Gillespie, and I. E. Gillespie ... 483
Electrolyte Movement across Canine Antral and Fundic Gastric Mucosa. W. P. Dyck, J. L. Werther, J. Rudick, and H. D. Janowitz ... 488
Clofibrate-induced Changes in the Activity of Human Intestinal Enzymes. D. Zakim, R. H. Herman, N. S. Rosensweig, and F. B. Stifel ... 496
Time Response of Jejunal Sucrase and Maltase Activity to a High Sucrose Diet in Normal Man. N. S. Rosensweig and R. H. Herman ... 500
Inhibition of Cholera Toxin Action in the Rabbit by Cycloheximide. H. A. Serebro, F. L. Iber, J. H. Yardley, and T. R. Hendrix ... 506
Intestinal Transmural Electric Potential and Its Response to Glucose in Acute and Convalescent Cholera. D. B. Sachar, J. O. Taylor, J. R. Saha, and R. A. Phillips ... 512
Immunoglobulins in Human Small Intestinal Fluid. A. G. Plaut and P. Keonil ... 522
Influence of Glucagon on Pancreatic Exocrine Secretin. W. P. Dyck, J. Rudick, B. Hoexter, and H. D. Janowitz ... 531
Effect of Lymph Drainage on Portal Pressure and Bleeding Esophageal Varices. R. E. Kessler, E. Santoni, D. A. Tice, and D. S. Zimmon ... 538
Vitamin B_{12} Uptake by Human Small Bowel Homogenate and Its Enhancement by Intrinsic Factor. R. Carmei, A. H. Rosenberg, K. S. Lau, R. R. Streiff, and V. Herbert ... 548
Tropical Sprue in Children. A Syndrome of Idiopathic Malabsorption. V. I. Mathan, S. Joseph, and S. J. Baker ... 556
Absorption of Water and Electrolytes in Crohn's Disease of the Colon. L. H. Head, J. W. Heaton, Jr., and R. M. Kivel ... 571

Pyloric Diaphragm in an Adult. J. M. Shartsis and T. A. Fox 580
Carcinoma of the Terminal Ileum and Sarcoidosis in a Case of Ulcerative Colitis. K. N. Jalan, N. MacLean, J. M. Ross, W. Sircus, and S. T. G. Butterworth 583

INDEX TO VOLUME 57*

Abaurre, R., S. G. Gordon, J. G. Mann, and F. Kern, Jr. Fasting bile salt pool size and composition after ileal resection, 679
Absorption
  drug, from stomach (Comment), 365
  iron
    effects of plasma from pregnant women (rat), 126
    humoral regulation (Comment), 225
    influence by humoral factor, 117
  of ethanol, from the stomach, 269
  saturated fatty acids by jejunum and ileum (rat), 9
  unsaturated fatty acids by jejunum and ileum (rat), 9
Acid
  and hemorrhage (Comment), 367
  bile, importance for phospholipid secretion into hepatic bile (human), 525
Acid rebound, following antacid ingestion 465*
Acidification
  antral
    effect on acid secretion induced by meat, 399
    effect on acid secretion induced by pentagastrin, 399
  duodenal, effect on pepsin secretion in man, 159
Action, intestinal
  locus, 467*
  of adrenergic nerves, 467*
Activity
  free intrinsic factor, inhibition by duodenal juice, 273
  gastric electrical, effect of transthoracic vagotomy (canine), 51
  gastric motor, effect of gastrin, 649
Adaptation, of intestinal lactase (rat), 406
Adenoma, villous, of small bowel (Case Report), 185
Adenosine-3′,5′-monophosphate, intracellular mediator, for methyl xanthine stimulation of gastric secretion, 377
Adrenergic blocking agents and pancreatic secretion (dogs), 611*
Alcoholic liver disease, in patients with serum immunoglobulin concentrations, 59
Alkaline phosphatase, intestinal concentrations in patients with celiac disease, 19
Alonso, D., See Harris, 377
American Association for the study of liver diseases (Notices), 374, 479
American Gastroenterological Association, annual meeting (Comment), 234
Amyloidosis, primary, and ischemic colitis, gastric ulceration and malabsorption (Case Report), 319
Analysis
  biochemical of human disease, and paradoxical drug reactions (Comment), 357
  clinical gastric secretory, peak acid output (Comment), 769
Anemia, pernicious, cytological evidence for "quiescent" stage of gastric cancer (Case Report), 173
Anergy, in Crohn's disease, 759*
55th Annual Clinical Congress (Notices), 115
Antacid, ingestion, acid rebound, 465*
Antia, F. P., See Desai, 636
Antibodies
  colon hemagglutinating in inflammatory bowel disease, 311
  Escherichia coli O:14 in inflammatory bowel disease, 311
  molecules, use of in basic physiological research (Comment), 228
Antigen, hepatitis, 756*
Antisepsis, intestinal, stability of fecal flora during mechanical cleansing, 569
Apte, S. V., and E. B. Brown. Effects of plasma from pregnant women on iron absorption by the rat, 126
Arthritis, rheumatoid, and necrotizing colitis (Case Report), 168
Ashworth, L. A. E.
  R. G. Strickland, N. C. Koo, and K. B. Taylor. Effect of *p*H on intrinsic factor and nonintrinsic factor vitamin B_{12} binding in human gastric juice neutralized in vivo, 506
  See Strickland, 511
Aspirin
  and gastric bleeding, 103*
  and gastric sulphoglycoproteins, 196*
Azathioprine, intrahepatic cholestasis (Case Report), 439

Babb, R. R. On the use of drug rechallenge to substantiate drug-induced hepatic injury (Comment), 767
Bacteria, small bowel, and tropical sprue, 197*
Baker, P., See Brom (Case Report), 319
Bank, S., See Brom (Case Report), 319
Banwell, J. G., See Langman, 19
Barium, and the small bowel, 352*
Barnardo, D. E., See Rhodes, 241
Bayless, T. M., See McGonagle, 5
Bile
  and excretion of unconjugated bilirubin (Gunn rats), 134

* The superior symbol (*) indicates that the entry is found in the "Selected Summaries" section.

Bile—*continued*
formation, effects of estrogen, 470*
hepatic, bile acids for phospholipid secretion, (human), 525
increased reflux into stomach, in patients with gastric ulcer, 241
in stomach (Comment), 356
Bilirubin, unconjugated, excretion in bile (Gunn rats), 134
Binder, vitamin B_{12} in normal subjects, 511
Birchall, A., See Cooke, 269
Bittencourt, H., M. H. Sleisenger, and E. Weser. Studies of serum and tissue maltases in the rat, 410
Blackwood, W. D. Pylorus identification, 163
Bleeding
gastric, and aspirin, 103*
upper gastrointestinal, and peptic ulcer (Current Clinical Concepts), 89
Bloch, K. J., See Ellman, 138
Blood count, white, in ulcerative colitis, 351*
Blood flow, gastric mucosal, effect of hydrocortisone, 36
Blood groups, ABO, in patients with celiac disease, 19
Bolin, T. D., R. C. Pirola, and A. E. Davis. Adaptation of intestinal lactase in the rat, 406

CONTENTS OF VOLUME 57

No. 1, JULY 1969

Presentation of the Julius Friedenwald Medal to Franz J. Ingelfinger. W. F. Lipp 1
Time of Onset of Action of Cholera Toxin in Dog and Rabbit. T. J. McGonagle, H. A. Serebro, F. L. Iber, T. M. Bayless, and T. R. Hendrix 5
Absorption of Saturated and Unsaturated Fatty Acids by Rat Jejunum and Ileum. N. D. Gallagher and M. R. Playoust 9
ABO Blood Groups, Secretor Status, and Intestinal Alkaline Phosphatase Concentrations in Patients with Celiac Disease. M. J. S. Langman, J. G. Banwell, J. S. Stewart, and E. B. Robson 19
Effects of Infusion Rate and Osmolarity on Volumogenic Diarrhea. Z. Shehadeh, R. N. Grantham, G. A. Brecher, and E. D. Jacobson 24
Further Studies of in Vitro Cytotoxicity of Lymphocytes for Colonic Epithelial Cells. R. G. Shorter, M. Cardoza, K. A. Huizenga, S. G. ReMine, and R. J. Spencer 30
Effect of Hydrocortisone on Gastric Mucosal Blood Flow and Secretion. E. D. Jacobson and W. E. Price 36
Effect of Cholecystokinin and Caerulein on Gastrin- and Histamine-evoked Gastric Secretion. G. F. Stening, L. R. Johnson, and M. I. Grossman 44
Effect of Transthoracic Vagotomy on Canine Gastric Electrical Activity. K. A. Kelly and C. F. Code 51
Serum Immunoglobulin Concentrations in Patients with Alcoholic Liver Disease. I. D. Wilson, G. Onstad, and R. C. Williams, Jr. 59
An Experience of Ulcerative Colitis. I. Toxic Dilation in 55 Cases. K. N. Jalan, W. Sircus, W. I. Card, C. W. A. Falconer, J. Bruce, G. P. Crean, J. P. A. McManus, W. P. Small, and A. N. Smith 68
Submaxillary Salivary Gland Swelling Developing during Peroral Endoscopy. R. L. Slaughter and H. W. Boyce, Jr. 83
Current Clinical Concepts 89
